

# SOURCE TO SEAS ZERO POLLUTION 2030

SOS-ZEROPOL2030 is developing a Holistic & Stakeholder Led Zero Pollution Framework to guide the process towards achieving zero pollution in European seas

## FOCUS ON FOUR PRIORITY POLLUTANT GROUPS & TWO CASE STUDY POLLUTANTS

- Groups: Nutrient Input, Contaminants, Marine Litter, Underwater Noise
- Cases: Chemical contaminant PFAS & Tyre Wear Particles
- Roadmap & Guidelines Towards Zero Pollution In Our Seas

## BUILDING BLOCKS FOR ZERO POLLUTION GOVERNANCE

- Analyses of the EU Zero Pollution Ambition & EU Governance Arrangements
- Public and Stakeholder Perceptions

## ZERO POLLUTION LIVING LAB SERIES WITH OUR STAKEHOLDERS

- In three Regional Seas & at European Level
- Developing Scenarios & SWOT Analyses

## INTEGRATED CASE STUDY POLLUTANT ASSESSMENTS

- Stakeholder Input & Experts Analyses
- Sources / Emissions / Effects / Value Chain / Impact Assessment
